Magnesia – Your specialist for Calcium propionate (Magnesia 726404)

You are in need of a preservative enabling an extra long shelf life period for your bakery, dairy and meat products?

Magnesia 726404 is coming with a Propionic acid content of about 78 % which results in a reliable inhibition of mold and bacteria. Depending on your needs either less raw material or longer microbial shelf life can be achieved.

Magnesia 726404 is complying to common international foods standards like E282 and having HALAL and Kosher certification.
