

MAGNESIA

MINERAL COMPOUNDS

Magnesia – Your specialist for Deep Ocean Minerals Concentrate (*Magnesia 7799000*)

Our Deep Ocean Minerals Concentrate is an ionic multi-mineral nutritional ingredient, containing around 80 minerals and trace elements from the deep sea, including Magnesium, Sodium, Potassium, Calcium, etc.

Deep Ocean Minerals Concentrate is produced by extracting water from a depth of more than 600 meters. In comparison with surface water Deep Ocean Water is unaffected by external factors and stable, low temperatures create an optimal environment.
